Career Objective :

To secure a mid-senior-level role as a Software Engineer where I can leverage over 5 years of experience in Laravel (PHP), C# .NET, Vue.js, React, Angular, MySQL, and SQL Server. I aim to contribute to building scalable, secure, and innovative applications that enhance business processes and improve user experience. With strong expertise in full-stack development, API integration, and database optimization, I am committed to delivering high-quality software solutions that align with organizational goals. Seeking an opportunity in a forward-thinking company that values technical excellence, innovation, and continuous professional growth.

Technical Skills:

Backend : PHP , Laravel , C# , .NET Core , API , Web Api
Frontend : Html , Css , Javascript , VueJs , ReactJs , Angular
Database : SQL , MySql , SqlLite , Postgres
Cloud & DevOps : Git , AWS , Docker
CMS : WordPress
OTHER : Zoho , Odoo

Projects

TF News Portal - <https://gitlab.com/TahmidFarzan/tf-news-portal>

Engineered a scalable News Portal CMS with Laravel 12 and MySQL, implementing content management, RBAC, media library, SEO slugs, advertisements, and background job processing for production deployment.

System Monitor - <https://gitlab.com/TahmidFarzan/system-monitor-flutter-android>

System Monitor – Built a real-time Android system monitoring application using Flutter and native Kotlin, featuring live battery, CPU, RAM, storage, and network monitoring with a privacy-first, Google Play-compliant architecture and zero data collection.

WatchX - <https://gitlab.com/TahmidFarzan/watch-x.git>

Media Server – Built a modular media management platform with Laravel, Vue 3, Inertia.js, and MySQL, featuring media uploads, content management, SEO-friendly URLs, activity logging, and scalable service-based architecture.

Experience:

Barta24

Oct- 2023 - ongoing

Sr. Web Developer

- Developing and maintaining a News Portal site using Laravel, PHP, React, Vue.js, Memcache, and MySQL, focusing on performance and scalability.
- Built and optimized an Attendance Management System using .NET Core MVC with SQL Server, ensuring accuracy and efficient workflow automation.
- Contributed to the development of an HRMS platform using Laravel, PHP, React, Vue.js, Redis, and SQLite, improving employee management and system reliability.

Amigoinformatics

Jul 2023 - Nov 2023

Software Engineer

- Supported and enhanced a Money Exchange software by adding new features and improving existing functionality using C#, MVC, API development, and MySQL.
- Contributed to the development and feature expansion of a POS system using PHP, Laravel and React, improving usability and performance.
- Added and enhanced e-commerce features including product management, order processing, cart functionality, and user management based on business requirements.

AndIt

Jan 2023 - Jun 2023

Software Engineer

- Developed and maintained a Ticketing Management System for Tour & Travel using Laravel (PHP) and Vue.js, implementing booking, scheduling, and user management features.
- Integrated and managed third-party API for ticket scheduling, ensuring accurate and real-time data synchronization.
- Built and optimized API logging to monitor requests, errors, and system performance.
- Supported and maintained e-commerce features by fixing bugs, improving backend performance, and ensuring smooth operation of product, order, cart, and user management modules.

Oscillosoft

Nov 2018 - Dec 2022

Jr. Software Engineer

- Developed and maintained a Medical Appointment Scheduler using Angular, C#, and SQL Server, improving booking efficiency and user experience.
- Supported and enhanced a Money Exchange software by adding new features and optimizing existing functionality using C#, MVC, API development, and MySQL.
- Built a Ticket Scheduler application using Laravel (PHP), streamlining event booking and schedule management.

ItShop

Oct 2018 - Nov 2018

Jr Software Engineer (Intern)

Developed an Invoice Management System using PHP Laravel and CSS, streamlining billing and record-keeping processes.

Academic Information :

Software Engineering	Daffodil International University	2014 - 2018
HSC	Shahid Nur-ali College	2012 - 2014
SSC	Naldanga Bhushan Pilot High School	2010 - 2012
